

## **Terms & Conditions**

### **1. Subject matter of the contract**

1.1 Choco Communications UK Limited (hereinafter "**CHOCO**") has developed an app and a web interface (hereinafter collectively the "**App**") through and via which commercial customers from the gastronomy, drink and food sector (hereinafter a "**Gastronomer**") can communicate and send their orders to their suppliers (hereinafter a "**Supplier**").

1.2 These General Terms and Conditions (hereinafter "**General Terms and Conditions**" or "**GTC**") apply to the use of the App. For the free download of the App, the general terms and conditions of the Apple App Store or Google Play Store shall apply in addition to these GTC and any section of those general terms and conditions shall take precedence over any section in these GTC in the event of inconsistency. However, an account (in accordance with section 3.1) is required to use the App after download; downloading the app alone does not entitle a User to use the App. In addition, CHOCO may offer to integrate the App into the corporate software of a Supplier. This integration and the use of the integrated App is subject to separate terms and conditions and is not the subject of these GTC.

1.3 The object of these GTC is to set out the terms and conditions under which CHOCO grants a licence for the Gastronomers and Suppliers who use the App (each a "**Company**"). By using the App, the Company confirms that it accepts these GTC and that it agrees to comply with them. If the Company does not agree to these GTC, it must not use the App.

1.4 The provisions of these GTC shall prevail over any other general or specific terms and conditions of the Company. These GTC may be supplemented by CHOCO, where appropriate, by specific terms of use for certain aspects of the App, which shall supplement these GTC and shall prevail over them in the event of any conflict.

### **2. Use of the App**

2.1 CHOCO grants to Company a non-exclusive, revocable, non-sublicensable, personal and non-transferable licence to use the App (in executable code) solely for the Company's internal business operations in the United Kingdom. For the avoidance of doubt, this licence also covers the use of the App by such individual Users (as defined in section 3.6 below) as the Company may designate. The source code of the App and other CHOCO software is not subject to these GTC and CHOCO reserves all rights thereto.

2.2 The App is designed and intended for professional use and is aimed exclusively at business customers, in particular the catering trade, the food industry and the food trade. Consumers are not permitted the use the App.

### **3. Registration and Account access Account creation and conclusion of contract**

3.1 The use of the App requires that the Company registers in the App and accepts these GTC. For this purpose, a registration form is available in which all information marked as mandatory must be filled in. Before submitting the form, the Company can correct any errors directly by correcting the respective information in the form. CHOCO will not activate incomplete registrations.

3.2 The Company may access, save and print the current GTC on the website at any time. CHOCO does not store the text of the contract after it has been concluded.

3.3 Upon receipt of the Company's application for registration, CHOCO may then open an account in the Company's name (hereinafter the "**Account**"), which enables it to use the App.

3.4 The Company warrants, represents and undertakes that all information provided in the registration form is accurate, up-to-date, truthful and not misleading.

3.5 The Company undertakes to update the information relating to its Account immediately in the event of any changes, so that it always complies with the above criteria.

### **User Assignment**

3.6 The Company shall ensure that any person ("**User**") who uses the App, or creates an Account, for or on behalf of a Company or

assigns himself or herself to an existing Company Account is authorised to accept these GTC and to (in relation to the Gastronomer) place binding orders with Suppliers or to (in relation to the Supplier) receive and fulfil orders from Gastronomers.

3.7 CHOCO may technically enable a Company to create additional User profiles. The Company shall not permit any third party competing with CHOCO to (directly or indirectly) have access to the App.

3.8 The Company undertakes to ensure that Users do not allow any third party to use the App in their place or on their behalf.

3.9 The Company is responsible for ensuring that all Users are aware of these GTC and other applicable terms and conditions, and that they comply with them and the Company shall be liable for the acts and omissions of its Users.

#### **Access data**

3.10 The Company undertakes to maintain the security and confidentiality of the data it uploads to the App ("**Access Data**") and, where applicable, to impose the same obligations on Users associated with its Account.

3.11 Any access to the Account using the Company's Access Data shall be deemed to have been made by the Company. The Company shall immediately notify CHOCO if it becomes aware that its Account has been used without its knowledge. The Company acknowledges that CHOCO has the right to take all appropriate measures in such cases, in particular to temporarily block the Account to prevent misuse. CHOCO shall not be responsible for any loss, destruction, alteration or disclosure of Access Data.

#### **4. Features and functionality of the App**

4.1 The App contains a messaging service (the "**Messaging Service**") which enables: (a) the Gastronomer to communicate directly with its Suppliers and place orders; or (b) the Supplier to receive orders from the Gastronomer directly and bundled in digital form.

4.2 Conversations via the Messaging Service take place between two Companies, including at least one Gastronomer.

4.3 The Gastronomer may only start a conversation with Suppliers (i) whose contact details have been added to the Gastronomer's Account at the Gastronomer's initiative or (ii) whom the Gastronomer has invited to participate in its use of the App and who have accepted this invitation. CHOCO does not allow the Gastronomer or the Supplier to view the List (as defined in section 4.5) of all Suppliers / Gastronomers using the App or to compare their characteristics.

4.4 The App includes an optional feature that enables Gastronomers to voluntarily include the estimated price for products (the "**My Price Feature**"). The My Price Feature enables Gastronomers to calculate the estimated cost of their order via the App. The Company acknowledges that CHOCO does not control or alter the information transmitted via the My Price Feature (the "**My Price Feature Information**"), and they may change from time to time subject to the specific information that Gastronomer may voluntarily insert therein. By using the App and submitting the My Price Feature Information, each Gastronomer and Supplier agrees to the use of My Price Feature via the App. The My Price Feature Information cannot be seen by any other than the Gastronomer to which the My Price Feature Information relates. Please note that we cannot accept any responsibility for the content of the data that you voluntarily upload to the App, therefore, you are fully liable for any shared information on the App which may infringe any applicable laws and/or any third parties right.

4.5 In order to facilitate the placing of the order, the Gastronomer shall also have the option of entering lists of the products that it usually orders from the relevant Supplier (hereinafter "**Lists**") or to ask CHOCO to enter them on the basis of the documents provided by the Gastronomer. By selecting a List, the Gastronomer only needs to specify the desired quantities in order to place an order with the relevant Supplier.

4.6 To use the functionality set out in section 4.5 above: (a) the Gastronomer shall provide CHOCO with the contact details of its suppliers and the desired Lists; and (b) upon receipt of the information at section 4.6(a), CHOCO may set up the Account with the contact details of the Suppliers and the Lists requested by the Gastronomer.

4.7 The content on the App that CHOCO provides is provided for general information only. It is not intended to amount to advice on which the Company should rely. Although CHOCO makes reasonable efforts to update the information it provides on the App, it makes no promises and provide no assurances that that content on the App is accurate, complete or up to date.

#### **5. Suspension / withdrawal of the App**

5.1 CHOCO does not guarantee that the App, or any content, will always be available or be uninterrupted. CHOCO may suspend or withdraw or restrict the availability of all or any part of the App for business and operational reasons. CHOCO will use reasonable endeavours to give the Company reasonable notice of any suspension or withdrawal (via the App or otherwise).

5.2 CHOCO reserves the right to offer other additional functionality in the App that it deems appropriate, in a form and according to the functionalities and technical means that it deems most suitable for the relevant functionality. CHOCO also reserves the right to modify the App (or any functionality of the App) or to remove certain functionality or other information to which a Company has access (such as a Supplier's product list).

## **6. Free service**

6.1 CHOCO shall not charge the Gastronomer any commission or other costs for the provision of access to the App. CHOCO may charge the Supplier a fee for the provision of access to the App and such fee will be highlighted to the Supplier during the registration process.

6.2 The contract for the use of the App shall run for an indefinite period.

6.3 The Company may terminate the contract on the use of the Services at any time with 7 days' notice by sending a corresponding message by e-mail to CHOCO at the contact details stated at the beginning of these General Terms and Conditions. The termination shall result in the automatic deletion of the Company Account.

6.4 CHOCO may terminate the contract properly and close a Company's Account for any reason, subject to at least 30 days' notice.

6.5 In addition, the contract may also be terminated in writing by CHOCO without notice for good cause. Good cause entitling CHOCO to terminate the contract shall be deemed to exist in particular if the Company has breached Sections 2, 7, 10, 13 or 14 of these General Terms and Conditions and has not remedied this breach within seven days of receipt of a notification in text form by e-mail.

6.6 In any case, CHOCO also reserves the right to close and delete an Account that has remained inactive for a continuous period of six months.

## **7. Duties of the Company**

Without prejudice to the other obligations provided for herein, the Company, the Gastronomer and/or the Supplier shall comply with the following obligations (as applicable):

7.1 The Gastronomer undertakes to ensure that orders sent via the App are accurate, true and correct.

7.2 The Supplier undertakes to respond to and fulfil orders placed via the App under the same conditions as other orders received outside the App.

7.3 The Company shall comply with applicable laws and regulations when using the App and shall not violate the rights of third parties or public order.

7.4 The Company shall be solely responsible for proper compliance with any legal requirements, in particular of an administrative, fiscal and/or labour nature, as well as for any payment of taxes or duties of any kind that may be incumbent upon it in connection with its use of the App. CHOCO shall not be held liable in this respect under any circumstances.

7.5 The Company acknowledges that it is aware of the limitations, particularly of a technical nature, of the App.

7.6 The Company undertakes to observe reasonable rules of politeness, courtesy and decency in its exchanges with other Companies.

7.7 The Company shall provide CHOCO with all necessary information and actively cooperate with CHOCO with regard to its use of the App and the proper performance of its obligations under these GTC.

7.8 The Company warrants, represents and undertakes that it is authorised to transmit through the App any content or information (commercial, editorial, graphics, audios, audiovisual or other, including the name and/or image that the Company or a User may have chosen to identify him/her within the App, the names of the Gastronomer and Suppliers and/or their contact details and the Lists of products) that it uses within the framework of the App and, in particular, within the framework of its exchanges with other Companies

or that it transmits to CHOCO via the App (hereinafter "**Content**" and/or "**Information**").

7.9 The Company grants CHOCO the right to use this Content and Information and warrants, represents and undertakes that it has all the necessary rights required to enable the use, reproduction and dissemination of this Content and Information by CHOCO.

7.10 The Company undertakes to ensure that the said Content or Information is lawful, not contrary to public order, morality or the rights of third parties, whether intellectual property rights or equivalent, personal rights, trade secrets or confidential information, that it is not in breach of any legal or regulatory provisions and, more generally, that it is in no way likely to give rise to any liability on the part of CHOCO.

7.11 The Company shall only transmit Content and/or Information that is appropriate to the purpose of the App and, in particular, shall not transmit the following Content and/or Information through the App (including, for the avoidance of doubt, via the My Price Feature): (a) Content that is not reasonably related to the ordering or execution of contracts between Gastronomer and Supplier (such as political or religious Content); (b) Content that is pornographic, obscene, indecent, shocking or unsuitable for a family audience, defamatory, offensive, violent, racist, xenophobic or revisionist; (c) unlawful Content; (d) Content that violates personal rights; (e) Information that breaches a confidentiality agreement or discloses a trade secret without permission; (f) Content that is false or misleading or promotes illegal, fraudulent or deceptive activities; (g) Content that is harmful to computer systems (such as viruses, worms, Trojan horses, etc.); and (h) in general, any Content that in any way and in any form infringes the rights of third parties or may harm third parties.

7.12 In order to use the App, the Company must be connected to the internet. The Company is solely responsible for the internet connection, and the Company acknowledges that the quality of the App is directly dependent on this.

7.13 The App is subject to continuous development. CHOCO shall inform the Company of any new version or any change to an existing version. The Company acknowledges and accepts that the use of the App requires the use of the latest versions of the App.

7.14 In order to improve and promote the App, CHOCO has the right to get in touch with each User of the App without prior notice to or approval by the Company. This may include the participation of a User in referral programs, sweepstakes and similar promotional activities.

7.15 In order to enable Choco to import the order lists of Supplier's Customers into the Software, the Supplier shall in a timely manner provide Choco with the names, Customer numbers and individual order lists of such Customers who have already registered for the use of the Software or who already order from Supplier *via* the Software. If the Supplier's Customers register for the use of the Software for the first time during the term of the Contract, then the Supplier shall provide Choco with the individual order lists of such Customers without undue delay (but no later than within twenty-four (24) hours). The Supplier will be free to provide Choco - instead of the individual order lists of relevant Customers - with the order history of the Products ordered from the Supplier in the last thirty (30) days. Supplier shall ensure that the Products reported in the order lists are also listed in the Product catalog and that the Products in the order list and in the Product catalog can be assigned to each other by means of a clear, identical Product number.
